Fyi, I am on a Technical Team call for OR CZARA right now and we are discussing the merits of producing the summary document that Christine wants. We are all pretty uncomfortable with a summary doc that's too boiled down. We are more comfortable with either what we have already co-developed for our decision document or something that's more of a "reasonable examples" idea list for approval. For example, for riparian forestry buffers, we are comfortable saying that we would accept something equivalent to what we approved for either WA or CA, or some articulated expansion of what OR is likely to propose in its rule amendment.

Ex. 5 - Deliberative

Steve Sweeney and Dave Croxton are on this call with me right now, too.

Deliberative/Pre-Decisional—Not for Public Disclosure

I understand the general concern and I share it. However, we need to get this done. Here's a revised version of the ASK of the State that I have put together based on what staff have essentially done to date. The major difference is that I have put in a milestone when the State needs to deliver the program, be it voluntary or regulatory, to address the CZARA shortfall. For all areas, the deadline I've used is end of calendar year 2015.

Christine,

I understand the push and would like to accommodate. I have concerns with our ability to make sure we're on the same page by COB today.

In general, I think we need to rely on the language from the draft findings so we make sure our message to the state is consistent.

I'm about to go into a few meetings, but will try reaching you after 1pm PT. Lynda, Let us know if you're available, say at 4:30pm.

Thanks, Joelle
